

THAI WAH STARCH

Alpha tapioca starch

Alpha tapioca starch is a pregelatinized tapioca starch for multi-purposes including food applications. It is processed from the native tapioca starch and derived in flake-powder form. It is cold water soluble and exhibits an instant swelling when added to aqueous preparations.

Appearance	White fine powder	
Moisture	10%	max.
Starch Content	90%	min.
Ash	0.2%	max.
pH	5.00 - 7.00	
Particle size pass thru. 30 mesh	90 %	min.
Brabender viscosity at Peak (5% D.S.)	800 B.U.	min.
